

Cajalco Road Widening and Safety Enhancement Project Community Workshops

March 15, 2023 and March 18, 2023

Workshop Overview

Purpose: Provide input and ideas for possible project enhancements that would benefit the community.

Goal: Identify and consider features, additions, and/or adjustments to the project that may benefit the community, and that are feasible and consistent with the purpose of the project.

Workshop Team

Riverside County Transportation Department

California Department of Transportation

ICF

Arellano Associates

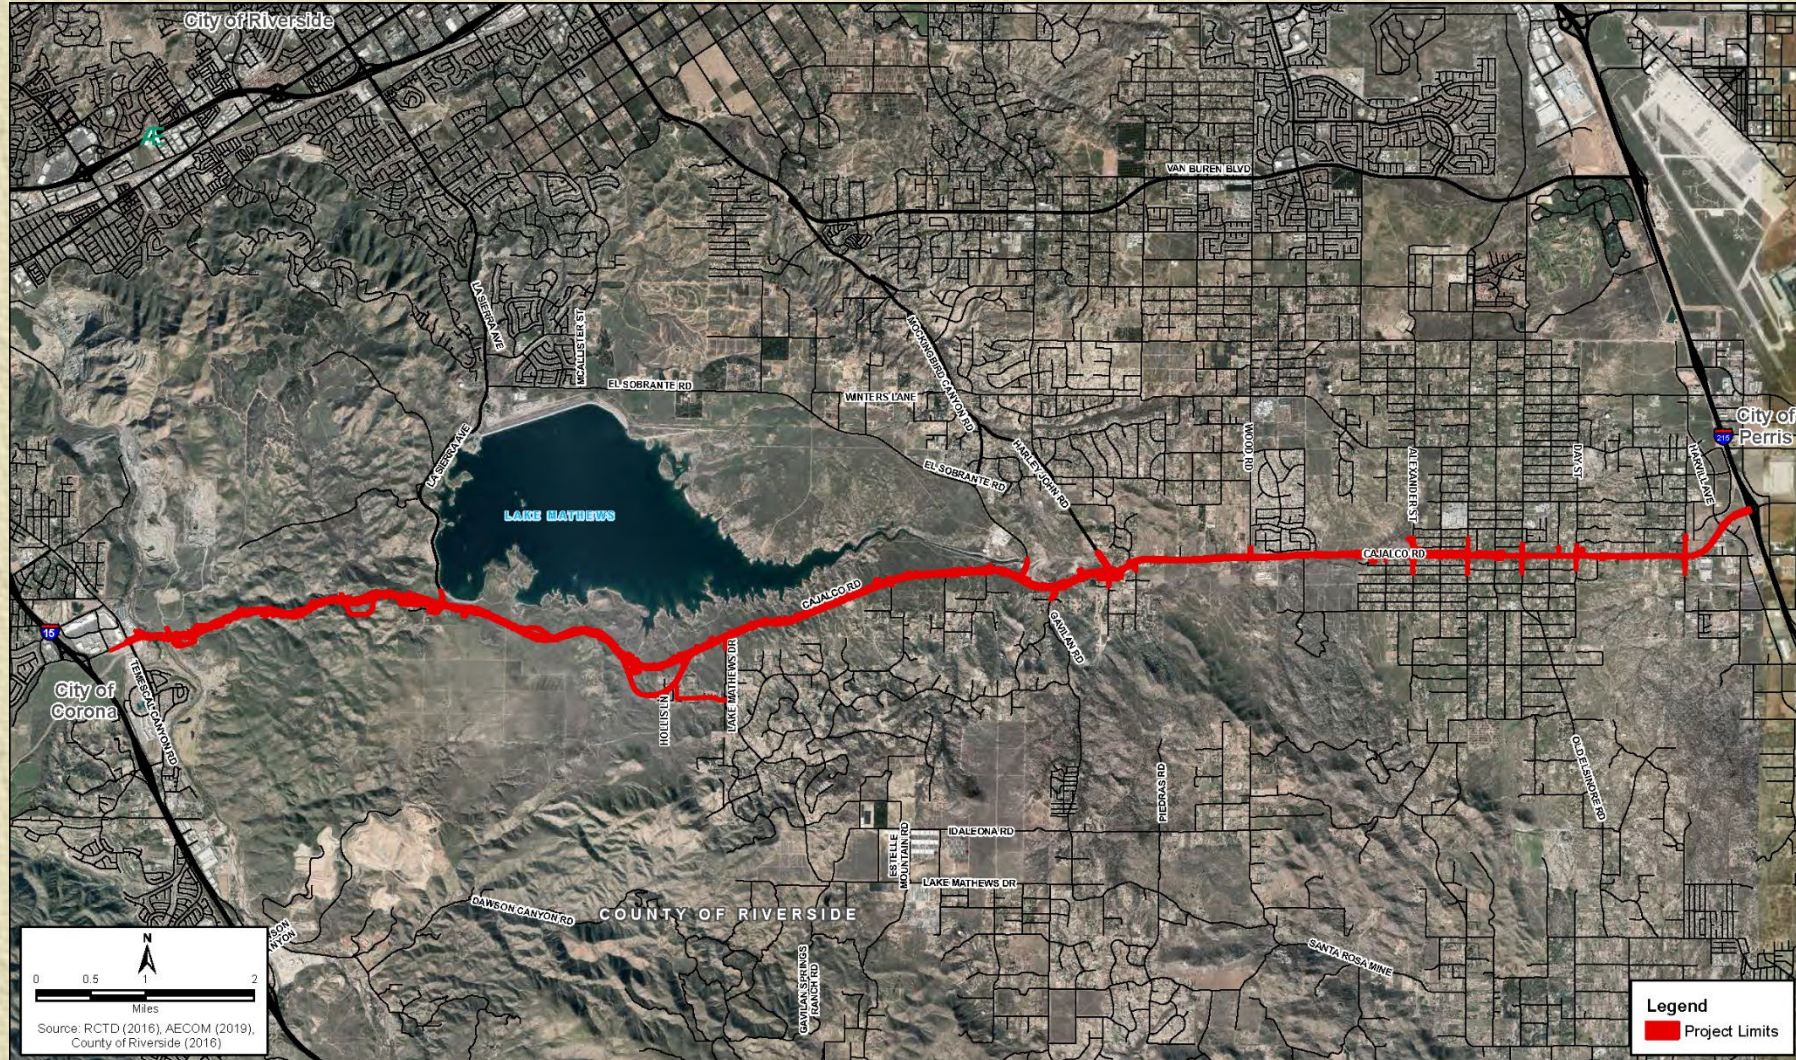

AECOM

Project Purpose

- Improve roadway alignment and intersection design to enhance safety.
- Improve the transportation facility to address anticipated growth and mobility needs.
- Improve interregional travel by improving east-west mobility in Riverside County.

Project Overview

Widen Cajalco Road between Temescal Canyon Road and Interstate 215

Project Features

- Widen Cajalco Road from two to four lanes between Temescal Canyon Road and Harvill Avenue
- Realign Cajalco Road curves – safety improvements
- Paved roadway shoulders and new medians
- New / improved traffic signals and intersections
- Construct sidewalk from Harley John Road to Harvill Avenue
- Wildlife crossings
- Drainage improvements
- New Lake Mathews Drive connection along Richey Drive

How to Submit Input

Visit and view the project maps and exhibits:

1. Write ideas and suggestions on the post-it notes provided, and place directly onto the project maps;

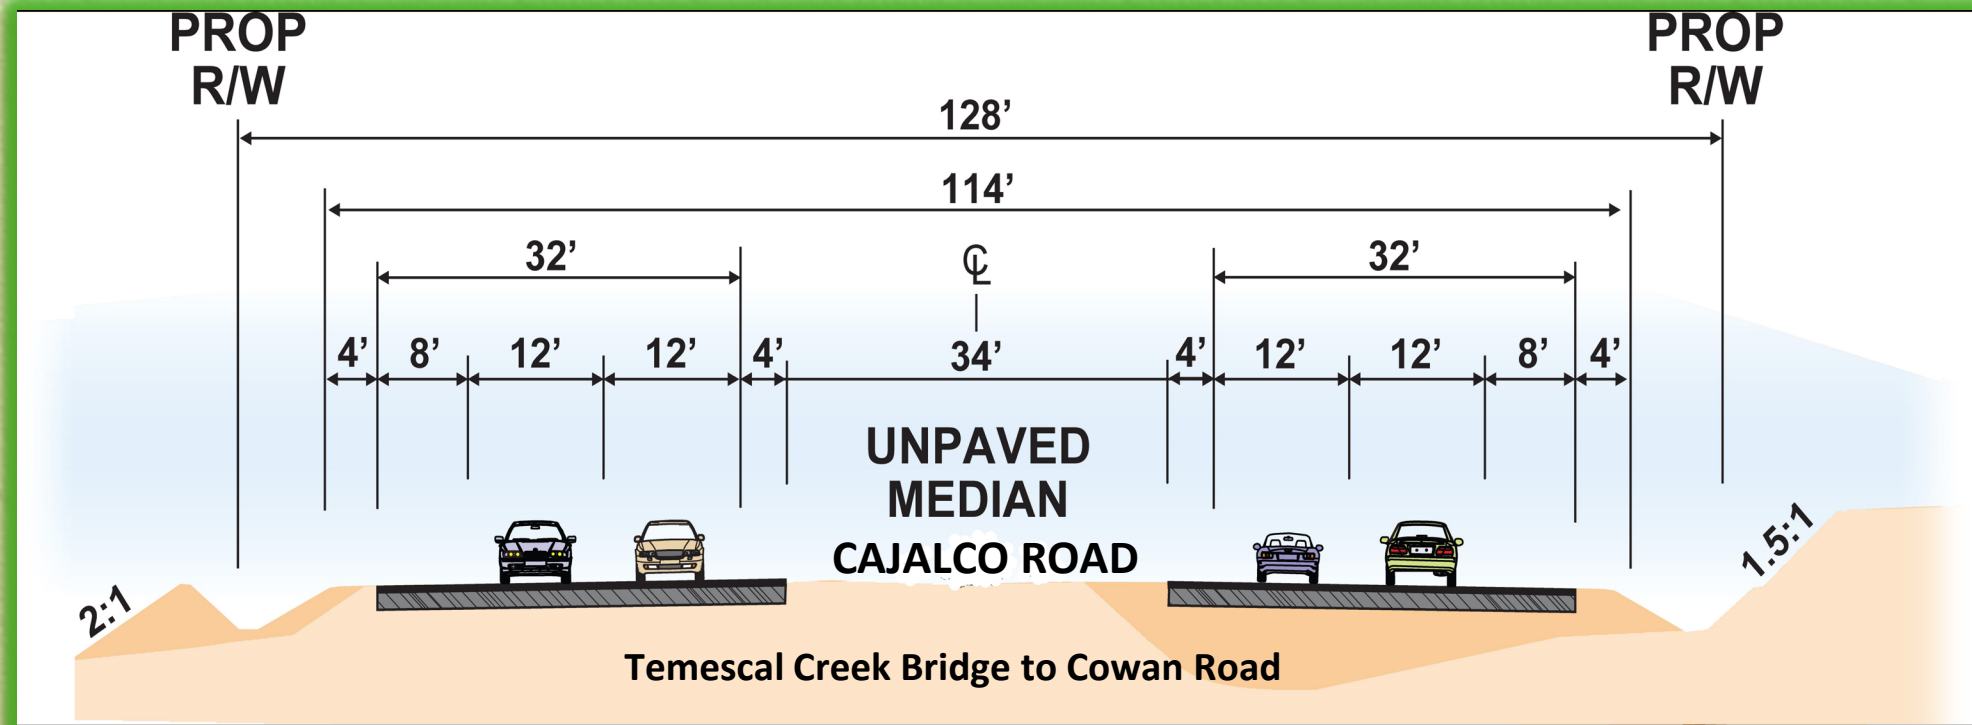

2. Write ideas on the forms provided at the workshop entrance and place in the form collection box or give to a team member;

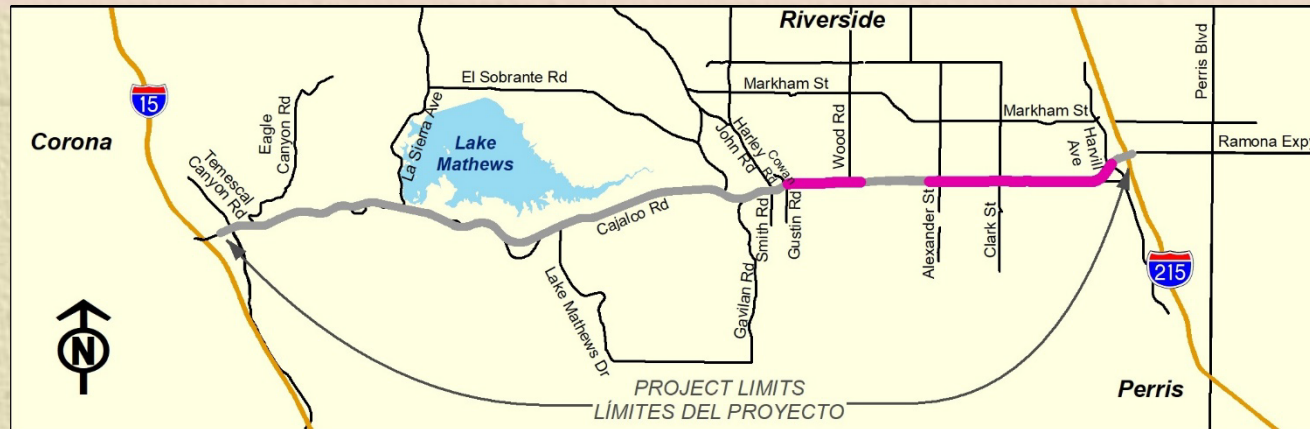

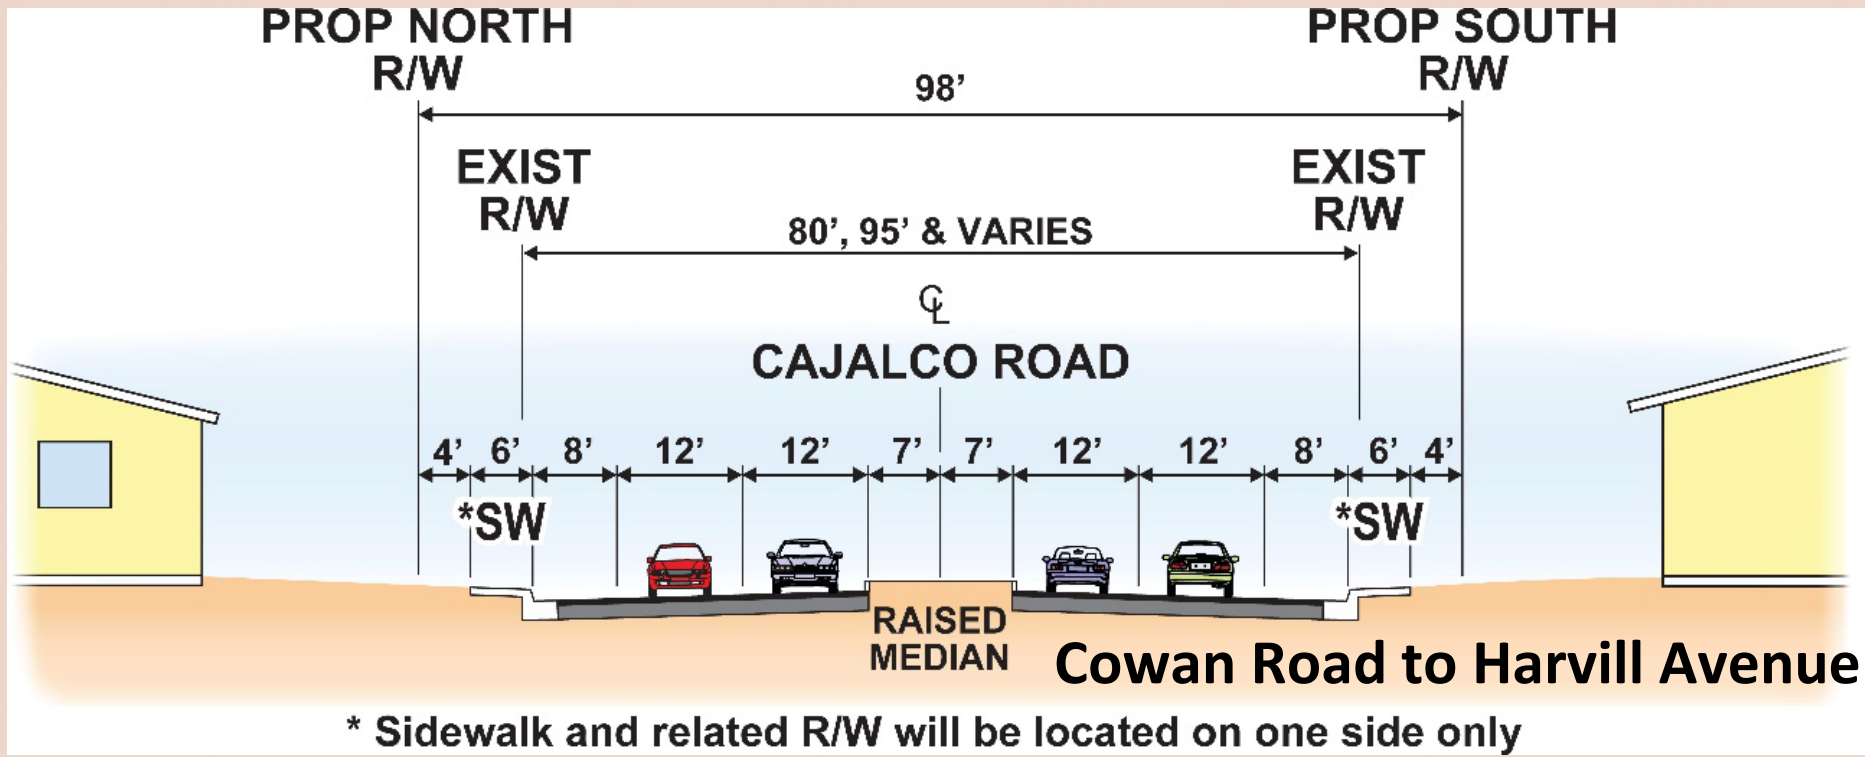

3. Visit rcprojects.org/cajalco-road-widening to fill out and submit an online form

Provide input no later than **March 31, 2023**
